## Notice of Fee Increase on October 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on October 1, 2003. See Revision of Patent Fees for Fiscal Year 2004; Final Rule, 68 Fed. Reg. 41532, 41533, 41534 (July 14, 2003).

The current fee schedule is accessible from (<http://www.uspto.gov/main/howtofees.htm>).

If the fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due" but not the correct amount in view of the fee increase, a "Notice of Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice of Pay Balance of Issue Fee," if the response to the Notice of Allowance is to be filed on or after October 1, 2003 (or mailed with a certificate of mailing on or after October 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously-paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Effective October 1, 2003, 37 CFR 1.18 is amended by revising paragraphs (a) through (c) to read as set forth below.

Section 1.18 Patent post allowance (including issue) fees.

- (a) Issue fee for issuing each original or reissue patent, except a design or plant patent:
- |                                       |            |
|---------------------------------------|------------|
| By a small entity (Sec. 1.27(a))..... | \$665.00   |
| By other than a small entity.....     | \$1,330.00 |
- (b) Issue fee for issuing a design patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$240.00 |
| By other than a small entity.....     | \$480.00 |
- (c) Issue fee for issuing a plant patent:
- |                                       |          |
|---------------------------------------|----------|
| By a small entity (Sec. 1.27(a))..... | \$320.00 |
| By other than a small entity.....     | \$640.00 |

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

***Examiner's Amendment***

9. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald Stuart on October 1, 2003.

The application has been amended as follows:

In claim 3, line 4, the recitation --embryogenic,-- was inserted before "hypocotyl-derived" and "cotyledon-derived".

In claims 6 and 7, line 2, the recitation --embryogenic,-- was inserted after "culture is".

10. The following is an examiner's statement of reasons for allowance: Applicants have produced a method to genetically transform *Gossypium hirsutum* embryogenic callus cultures derived from hypocotyl or cotyledon tissues, using silicon-carbide whiskers, and regeneration of transgenic cotton plants therefrom. The prior art (Frame et al., Plant J., 1994, Vol. 6, pages 941-948) teaches the transformation of maize suspension cells using silicon carbide whiskers, and regeneration of transgenic maize plants therefrom. However, Frame et al. do not teach the transformation plant cells from other types of plants or tissues. Frame et al. mention that they

Art Unit: 1638

also obtained transformed maize lines from whisker treatment of embryogenic callus, but do not teach any of the parameters of the whisker treatment or any other method steps. In the paper submitted 29 July 2003, Applicants also point out the factors that must be considered when using whisker-mediated transformation with different cell types, and persuasively argue how the determination of these factors is not obvious for different cell types.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
